

Best Possible Self

WHY YOU SHOULD TRY IT

Imagine your life going as well as it possibly could, then write about this best possible future. By doing so, research suggests that you'll not only increase your optimism in the present but pave the way for sustained success down the line.

Thinking about your best possible future self can help you restructure your priorities in order to reach your goals. Additionally, it can help you increase your sense of control by highlighting what you need to do to achieve your dreams.

People who completed the Best Possible Self exercise daily for two weeks showed greater positive emotions. Those who kept up with the exercise even after the study was over continued to show increases in positive mood one month later.

TIME REQUIRED

15 minutes per day for two weeks

HOW TO DO IT

Take a moment to imagine your life in the future. What is the best possible life you can imagine? Consider all of the relevant areas of your life, such as your career, academic work, relationships, hobbies, and health. What would happen in these areas of your life in your best possible future?

For the next 15 minutes, write continuously about what you imagine this best possible future to be. Use the instructions below to help guide you through this process.

1. It may be easy for this exercise to lead you to examine how your current life may not match this best possible future. You may be tempted to think about ways in which accomplishing goals has been difficult for you in the past, or about financial/time/social barriers to being able to make these accomplishments happen. For the purpose of this exercise, however, we encourage you to focus on the future—imagine a brighter future in which you are your best self and your circumstances change just enough to make this best possible life happen.
2. This exercise is most useful when it is very specific—if you think about a new job, imagine exactly what you would do, who you would work with, and where it would be. The more specific you are, the more engaged you will be in the exercise and the more you'll get out of it.
3. Be as creative and imaginative as you want, and don't worry about grammar or spelling.
